ELECTRONIC ECO SERIES FIRE CONTROL PANEL

PRODUCTION CATALOGUE

FIRE CONTROL PANEL

ELECTRONIC ECO SERIES FIRE CONTROL PANEL

SYSTEM FEATURES

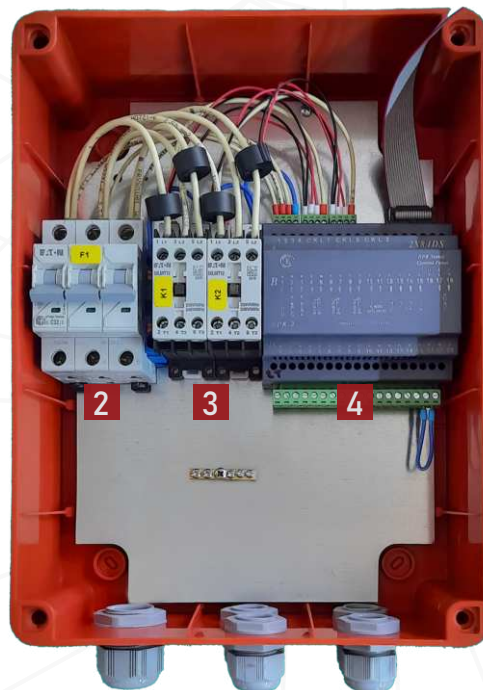

- LCD screen
- Auto Test feature.
- Automatic reset on current fault.
- Automatic test solenoid valve output
- Ability to use with pressure transmitter.
- Real runtime - dependent embedding
- Automatic and manual operation selection.
- Informing errors conditions with relay contact.
- Ability to see the pump currents on the screen.
- Password protection against unauthorized tampering.
- Ability to set automatic reset waiting time and number.
- Ability to set pump upper and lower current value.
- Ability to set upper and lower values voltage protection
- Ability to see date and time information on the screen.
- Measuring 3 phase voltage values and seeing on the screen
- Working as long as you press the test button in manual operation
- Limiting the number of activation (switching) of the pumps per hour.
- Automatic calculation of pump current values with recognition mode
- Pump is in ready circuit and can monitor error conditions on the screen
- Failure record device memorizes the last 20 faults with date and time.
- Ability to see the pressure value on the screen when using a pressure transmitter

CONTROL PANEL & INTERNAL VIEW

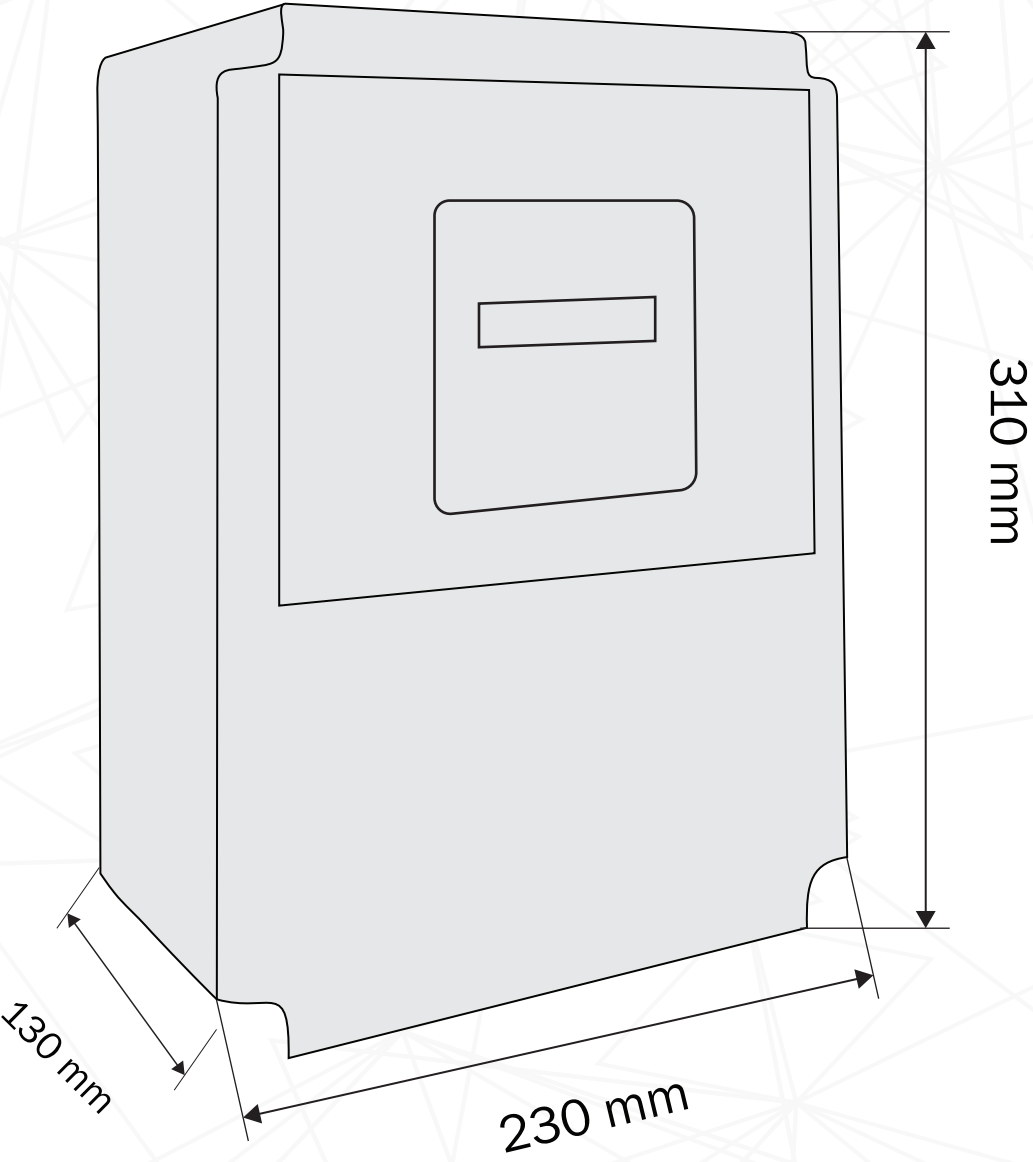

Materials Used

- 1) Control Panel
- 2) Automatic Circuit Breaker
- 3) Contactor
- 4) Relay Output
